Amtrak is leading the way by setting a [new standard of travel](#) with enhanced safety and cleaning measures. In an effort to simplify and safeguard the travel experience, several cleaning, contact-free and convenience measures have been implemented into every part of the customer journey, including:

- **Face Coverings:** For your well-being and ours, Amtrak requires that all customers and employees wear a face mask or covering that fully covers the entire mouth and nose while onboard and in stations.
- **Enhanced cleaning:** Amtrak has enhanced cleaning and disinfecting protocols at stations and onboard our trains.
- **Limiting bookings:** We are limiting bookings on most trains to allow for more physical distancing in seating areas. Individuals traveling alone may use the seat next to them for personal belongings, while friends and family members will easily find seats together.
- **Air Quality:** All trains are equipped with onboard filtration systems with a fresh air exchange rate every 4-5 minutes.
- **Physical distancing:** Signage has been displayed at our busiest stations to indicate safe distances in high traffic areas. In addition, protective plastic barriers have been installed at customer counters at our busiest stations.
